

Drug & Alcohol

Implementation Guidelines for Drug and Alcohol Regulations in Mass Transit and Quarterly Updates

Federal Transit Administration (FTA)

Robbie Sarles, RLS & Associates, Inc. co-authored the FTA Implementation Guidelines. This manual was developed to provide a user-friendly summary of the FTA drug and alcohol testing regulations. This widely used manual has proven to be an effective management tool and resource for those establishing testing programs. RLS also updated and revised the Implementation Guidelines to reflect regulatory changes in 49CFR Part 40 and the replacements of 49CFR Parts 653 and 654 with the new Part 655.

The firm also produces the FTA Drug and Alcohol Regulation Updates that summarizes changes, clarifications, and interpretations of the regulations that have occurred since the guidelines were published. The updates are produced quarterly in newsletter format.
