

Triennial Review Preparation and Ten-Year Financial Plan for Jacksonville Transit

City of Jacksonville, NC

RLS is assisting the City of Jacksonville with its preparation for its upcoming Federal triennial review. The Triennial Review Program is now an ingrained part of the Federal Transit Administration's (FTA) grants landscape and is a comprehensive review that assures continuation of Federal financial support for Section 5307 systems. RLS is assisting the transit manager to ensure that the City is thoroughly prepared for the review in FTA's 20 identified technical areas as well as Drug and alcohol testing program compliance; procurement; Civil Rights; financial management; ADA; and American Recovery and Reinvestment Act.

RLS is also assisting the City by developing the tools and strategies necessary for a ten-year financial plan that most effectively leverages Federal and State funds to support transit operations over a ten-year horizon, 2013-2022.
